OVERVIEW

Result-driven and skilled C# Developer with a strong background in backend development, front-end, web API,s and version control. Experienced in designing and developing new features, maintaining and enhancing existing applications and collaborating with cross-functional teams. Proficient in C#, .NET, web APIs, and unit testing. Committed to delivering high-quality solutions that meet customer needs. Excellent problem-solving, communication, and teamwork skills.

Also as a front-end developer, I am proficient in creating visually appealing and interactive user interfaces for websites and web applications.

A motivated, adaptable and responsible Mathematics graduate seeking for a position where my mathematical knowledge and other skills will be utilized. I have a methodical, customer-focused approach to work and a strong drive to see things through to completion.
