NWATU MARTIN CHUKWUEMEKA

.NET/C# Software Engineer

Email: martinchukwuemeka67@gmail.com , **Phone:** +2349131518262

Overview

With over 3 years of dynamic industry expertise, I am not just your typical .NET Developer; I am a catalyst for groundbreaking solutions. Harnessing the prowess of cutting-edge technologies like ASP.NET, ASP.NET Core, SignalR, MS SQL Server, Docker, Kubernetes, and Azure, I have redefined the possibilities of innovation. Through my passion for excellence, I have steered innovative platforms towards uncharted territories of success. Like an alchemist, I transform existing code bases into powerful engines of performance, scalability, and user delight. My code orchestrations breathe life into every project, driving it towards unparalleled heights.

Technologies/Skills

- Languages: C#, SQL, JavaScript, HTML, CSS

- Frameworks: .NET, React.js, Next.js, Angular

- Testing: Xunit, Moq, Unit Testing

- Databases: SQL Server, MySQL, PostgresSql

- Tools: Visual Studio, Visual Studio Code, Git, GitHub, Jira, MSSQL server, Teams, Slack, Postman, Swagger, Docker

- Web Technologies: ASP.NET, RESTful APIs, JSON, XML

- Development Methodologies: Agile/Scrum

- Problem-Solving and Innovation

- Collaboration and Teamwork

- Strong attention to detail

- Excellent troubleshooting and communication skills

- Knowledge of REST and RPC APIs

- Able to work well in a team setting

Experience

Software Engineer 2023 (April) – Present

- Spearheaded the implementation of cutting-edge features and game-changing APIs, propelling the evolution of accounting software into uncharted territory.
- Transformed complex code bases into highly optimized engines of performance, scalability, and user-centricity, elevating the software to new heights.
- Transformed the entire application lifecycle with unwavering focus, seamlessly transitioning from coding and debugging to troubleshooting and deployment.
- Engineered clean, modular, and future-proof code that set the gold standard for maintainability and efficiency, earning accolades from peers and stakeholders alike.
- Unleashed turbocharged speed and unwavering scalability, meticulously fine- tuning applications for maximum performance under intense workloads.
- Orchestrated seamless collaboration and synergy with cross-functional teams and stakeholders, fostering an environment of innovation, excellence, and shared success.

Education

Federal University Of Technology Owerri Imo State Nigeria.
- B-Tech. Mathematics 2014 – 2019

Decagon Software Engineering institute
- NanoDegree in Software engineering 2023 – Present
